### **DETAILED ACTION**

The following action is in response to the amendment filed for application 10/705,475 on June 17, 2005.

#### ***Allowable Subject Matter***

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the shift control system for a hybrid vehicle as claimed, and particularly including a clutch mechanism arranged between the prime mover and the transmission, a torque capacity of the clutch mechanism being lowered at a shifting time of the transmission, an electric motor that assists a driving torque at the shifting time; the generator being driven by the prime mover at the shifting time supplying electric power, and including the remaining controls and structures of claims 1, 11, and 12, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Frank and Aoyama have been cited to show similar hybrid arrangements and controls thereof.
